MUSCLEBUILDING MASSACRE

READ THE WRITINGS ON THE WALL TO FIND
OUT HOW YOU CAN UNLEASH AN INNER PREDATOR
WITH ENDLESS ANABOLIC POTENTIAL FROM ONE
HIT OF naNO VAPOR™.

OBSESSIVE TRAINING THOUGHTS
course through the depths
of your mind, as bad memories
of your last wasted training
session haunt you. You've
wasted enough time being
small and weak; it's time
for a change, it's time
to get serious.

Scanning the pages of your
favorite bodybuilding
magazines, a common

pre-workout ritual executed by
the world's top pro bodybuilders
becomes evident. "Before every
brutal musclebuilding massacre
of the weights, intensity
addicts Jay Cutler, Johnnie
Jackson, Gustavo Badell and
Dexter Jackson infuse their
muscles with a powerful hit
of naNO Vapor," it reads.
You realize that this is the
critical piece of the story
missing from your musclebuilding
mystery. These pages will now
pose as the cornerstone to your
new mission - a path of blood,
muscle and raw intensity that
culminates in the realm of
naNO Vapor - the World's
Strongest Vaso-Anabolic
Psychoactive Experience™.

...e beast with unimaginable power can be summoned with the emergence of nano Vapor™ — the ultimate anabolic psychoactive experience.

IGNITING A NEUROLOGICAL SHOCK

Staring out at your concrete wall plastered with the pages you've collected over the past several months, an inner beast awakens as you lie back on the bench under the heavy-ass barbell. Unknown to your conscious mind, the nano Vapor formula has already set in motion an intense neurological shock within your

psychological control centers. The psychoactive signaling intensity catalyst, NeuroAMP™, detonates a neurological storm that travels down axons and across synapses to invigorate your cells with a blast of unimaginable firepower. The weight feels light as you tear it off the rack and start firing up reps like a man possessed. Compounding with this focused surge of power is the lipid inferno fusion — Infernogen™. As a synergistic component of the nano Vapor

experience, Infernogen sets off a thermogenic cascade within your body. With each passing second, it feels as though a rampant rush of electric current is flowing through your dilated veins turning you into a metabolic inferno. Entering this new realm of psychoactive and white-hot intensity, you realize that after today, you'll never fall back to typical mediocre training sessions.

RAW ANABOLIC PUMPS

As you continue on your path of iron destruction, deep inside you, your muscle cells are being blasted with copious amounts of blood, filled with amino acids, creatine, glucose and other key growth-inducing compounds. Powering this overwhelming physique-altering experience is the nitric oxide amplification matrix, Vasoprime™, which has already initiated its powerful growth activation process. You've felt pumps before, but absolutely nothing like this! Your muscles are fuller and more vascular than you had ever thought possible, and you're just getting warmed up.

To crank your musclebuilding gains, the nano Vapor formula has been infused with Intravol™ — a muscle cell volumizing complex that

injects itself into every muscle cell, expanding them with extreme force. Tearing the 100-pound dumbbells off the rack, your muscles feel alive with raw anabolic energy that pulsates through your body with every rep. This is what you've been reading about and this is what your muscles have been screaming for.

UNRESTRICTED GROWTH SIGNALING

With so many physiological processes igniting simultaneously within your body, you are unable to comprehend the powerful growth signaling cascades erupting deep below the surface. The anabolic/anti-catabolic signaling complex, Anaphex™,

Your body has no other option except to grow with every workout.

shields your muscles, reducing the effects of catabolic agents that threaten to cannibalize your gains. Forced into an unrestricted anabolic state, your body has no other option except to grow with every workout.

Just when you think you've felt the full wrath of one hit of nano Vapor, the groundbreaking growth factor complex, MyoGF™, triggers a clinically proven spike in post-workout growth hormone levels. This dramatic anabolic event literally forces your
